Hello Folks,

I recently recieved your request for my support on your Resource Benefits Alliance quest to get a share of provincial revenues generated in the region going back 5 years, a ongoing share of provincial revenue generated in the region and the legacy for the region.

I will support your alliance in that quest if elected, of those three asks, and I will work hard to help make it a reality. It is just common sense. It could improve the standard of living for all the region. I have not done enough research into the RBA to say I can support the organization in all its goals as some may conflict with my libertarian principals, but I will certianly support the three requests outlined in your letter to me that I have mentioned above.

Jon Rempel, Candidate for MLA Nechako-Lakes 2017

BC Libertarian Party
